DEDICATION

This Fortieth Anniversary Annual is dedicated to a woman who has devoted most of her life to the development of the educational program in the San Luis Valley. During this time she has instilled in her students the high purposes and goals she has set up for high school education. For these reasons we, who have been her students, wish to dedicate this book to Mrs. Ruth Mathias as a token of our appreciation for her vital interest in each one of us.

DONALD HENNIGAN
Principal

ROW ONE: Mathias, Clark, Sassaman, Kerr, Lohrey, Long. ROW TWO: Howerton, Hinson, Bates, Klements, Minelli.

This year the graduating class totals 15 members. This class is slightly smaller than the average for the past several years, but is large compared to the first class.

The first group to complete the courses offered, graduated in 1919 and was composed of three members who could take courses in arithmetic, algebra, physics, chemistry, biology, home economics, English, ancient history, medieval and modern history, and Latin. These were the early equivalents of today's courses.

Today, the students have at their disposal a physics, chemistry and biology laboratory, a well-equipped home economics department, and a shop with modern power and hand tools as well as up-to-date materials for other classroom work.

In the forty years during which the Sargent District has been consolidated, the school has grown in total enrollment from about 50 to the present 160. The consolidation disposed of the many one-room schools which previously were scattered throughout the area, and provided for a better schooling for the students and a more efficient school system.

Because of the growth of the school, the valuations of the buildings and equipment have risen from about $125,000 at the time of consolidation to the present $1,000,000.

Even through hard times, Sargent has always been able to keep a good staff of teachers and has one of the best-rounded curriculars in the state for the size of the school.

Few of the school organizations that are now worked into the schedule to supplement or follow up the regular classes were present in the schedule of early school at Sargent. Two early-day organizations were the annual and Glee Club.

The Glee Club was one of the most active organizations and one year put on a Christmas cantata and an operetta.

Many more organizations have been added until the present number totals fifteen.

With the addition of the many organizations to the original few, the number and types of honors have also increased.

The first trophies awarded to a Sargent team were in 1937 and 1943 when the football team was the champion in the San Luis Valley League.

Since that time, many honors and awards have been given to the school for excellence in team and individual contests. And in the school, awards of all kinds have been given for excellence in sports and in scholastic work.

Honors

One of the things that was included in the sports curriculum during the beginnings of Sargent, but is not permitted today, was girls' basketball. This proved to be a very popular sport and was well supported by both the students and the community. The girls' basketball teams did well then, playing games with almost every team in the valley, and coming out with the highest score nearly all the time.

Football, basketball, and track were included in the boys' sports program as they are now and were all very popular although in some ways they did not bear complete resemblance to the modern day sports. Wrestling was added in 1948, completing an all-around sports program.
